COFFEESHOPGROW

Coffee shop owner ki 2 badi problems — aur unka simple solution.

Problem #1

Customer coffee leta hai… phir kaafi din tak nahi aata.

Problem #2

Naye customers ke liye ads/offers par depend karna padta hai.

COFFEE

LOYAL + REFER

Problem #1: Customer ko loyal kaise banaye?

Customer ek baar aata hai, lekin next visit ki guarantee nahi hoti.

First visit

Customer coffee leta hai.

Payment

Customer chala gaya.

Next visit?

Koi guarantee nahi.

CUSTOMER

2ND VISIT?

Goal: Customer ko regular banana

Loyalty ka goal discount dena nahi — customer ko repeat visit ka reason dena hai.

Aaj

1 coffee purchase.

Loyalty

Next visit ka reason.

Goal

Regular customer.

GOAL

REGULAR

Solution #1: Digital Stamp Card

Har eligible coffee purchase par 1 digital stamp.

Visit 1

1 coffee → 1 stamp

Visits 2–5

Har coffee → stamp

Milestone

5 stamps → 6th FREE

5 STAMPS

→ FREE COFFEE

Loyalty ka exact maths

1 coffee = ■150 | 5 visits = 5 coffees = ■750 | 6th coffee = FREE

1 COFFEE

■150

5 VISITS

5 × ■150 = ■750

6TH COFFEE

FREE

Customer ne reward tak pahunchne ke liye pehle 5 coffee purchases kiye = ■750 sales.

6th coffee free ka purpose: customer ko pehle 5 paid visits complete karne ka reason dena.

■750

→ FREE 6TH

Loyalty profit calculation

Profit samjhane ke liye coffee ki estimated variable cost ■50 maan rahe hain.

REVENUE

5 paid coffees = ■750 6th coffee = ■0
Total revenue = ■750

EST. COST

Assumed cost = ■50/coffee 6 coffees × ■50 = ■300 total cost

GROSS PROFIT

■750 – ■300 = ■450 ■450 / customer

So, 1 customer completing the full loyalty cycle can generate an illustrative ■450 gross profit after the free 6th coffee.

Important: ■50 is only an example variable cost. Owner ke actual coffee cost ke hisaab se profit change hoga.

■450

GROSS PROFIT

Business sales mein difference

Pehle customer 1 baar aata tha. Loyalty join karne ke baad wahi customer regular banne ka opportunity create karta hai.

PEHLE

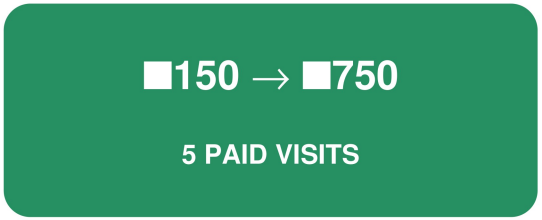

Customer 1 baar aata hai 1 coffee = ■150 Example sales = ■150

LOYALTY KE BAAD

5 paid visits = ■750 6th coffee FREE Customer regular banne ka opportunity

BUSINESS SALES FIGURE: ■150 → ■750 from the same customer journey before the free reward.

Pehle customer sirf ek baar aaya. Loyalty program usko regular customer banne ka opportunity create karta hai.

Problem #2: New customer kaise laaye?

Existing customers ke network ko acquisition channel banaya ja sakta hai.

Traditional

Ads / Instagram / local promotions → ongoing spend.

Referral

Existing customer friend ko refer kare.

REFER

CUSTOMER → FRIEND

Solution #2: Refer & Reward

1 coffee = ■150 | Referral offer = 15% for referred customer + 15% for referrer

COFFEE PRICE

1 coffee = ■150

REFERRED CUSTOMER

15% off = ■22.50 Pays = ■127.50

REFERRER

15% reward Pays = ■127.50

Referral reward tabhi trigger ho jab referred customer ki first paid visit complete ho. Uske baad woh bhi loyalty join karega.

15% + 15%

■150 → ■127.50

Refer & Reward ka exact maths

Sweta → Deepti | Dono ke eligible ■150 coffee purchase par 15% benefit.

DEEpti — FIRST VISIT

Coffee = ■150 15% discount = ■22.50
Received = ■127.50

SWETA — NEXT VISIT

Coffee = ■150 15% reward = ■22.50
Received = ■127.50

TOTAL RECEIVED

■127.50 + ■127.50 = ■255

Without referral: Sweta = ■150. With referral: Sweta + Deepti = ■255 received.

Difference = ■105 additional revenue in this example, before actual coffee/product costs.

■150 → ■255

2 CUSTOMER VISITS

Referral profit calculation

Coffee cost ■50 per coffee maan kar gross profit ka example.

TOTAL REVENUE

Deepti = ■127.50 Sweta = ■127.50 Total = ■255

EST. COST

2 coffees × ■50 Total cost = ■100

GROSS PROFIT

■255 − ■100 = ■155 ■155 from referral pair

Illustrative gross profit = ■155 for the two-customer referral process, assuming ■50 variable cost per coffee.

Referral se additional revenue ■105 tha; after the assumed ■100 total coffee cost, gross profit is ■155.

Actual profit owner ke real coffee cost, rent, staff, utilities etc. par depend karega.

■155

GROSS PROFIT

Referral + Loyalty loop

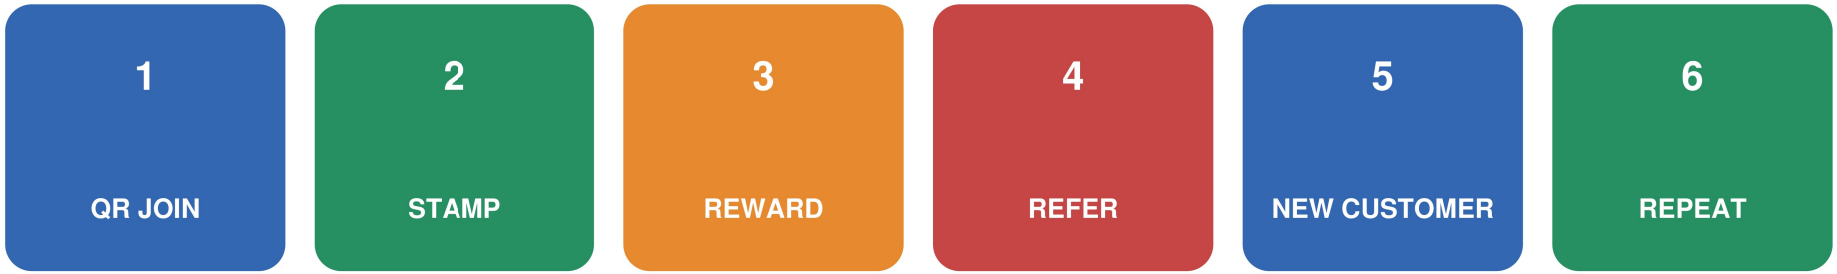

Naya customer sirf referral sale nahi — loyalty program ka next regular customer bhi ban sakta hai.

Deepti first paid visit ke baad loyalty join karegi. Ab woh bhi stamps earn, reward unlock aur future referral kar sakti hai.

Simple customer-growth system

QR → Loyalty → Reward → Refer → New Customer → Repeat

QR → Loyalty → Reward → Refer → New Customer → Repeat.

15-Day Free Pilot

Real customers ke saath test, measure aur decide.

TEST #1

Kya repeat purchases badhti hain?

TEST #2

Kya customers refer karte hain?

TEST #3

Kya referred customers loyalty join karte hain?

15 days — real customers, real numbers, then decide.

15 DAYS

TEST → MEASURE

Final idea

Customer ko ek baar coffee pilana goal nahi — usko regular banana aur usse naye customers lana hai.

LOYALTY

5 PAID → 6TH FREE

REFERRAL

15% + 15%

RESULT

REGULAR + NEW

Customer ko ek baar coffee pilana goal nahi — usko regular banana aur usse naye customers lana hai.
